

Actiontec GT784WN 300 Mbps Wireless-N DSL Modem Router Review:

The Actiontec GT784WN is a new full featured, high performance combination ADSL modem and wireless N router from Actiontec. The GT784WN and the Actiontec wireless G model GT724WGR are two of the highest consumer reviewed DSL combo modem / routers you can buy at Amazon.

This device is compatible with virtually all major DSL service providers including At&t, Verizon, Qwest, Frontier, Centurylink, and most other DSL Internet services. Setup is simple due to the auto-detection of specific DSL provider service settings. This enables non-technical users to setup the GT784WN with relative ease.

Another cool feature is the MIMO Smart Antenna. This helps to improve your wireless performance and extend the range of your wireless signal while getting rid of dead or weak spots in your wireless coverage area.

Amazon Customer Reviews:

★★★★★ Big Improvement...., March 9, 2011

This review is from: **Actiontec 300 Mbps Wireless-N DSL Modem Router (GT784WN) (Electronics)**

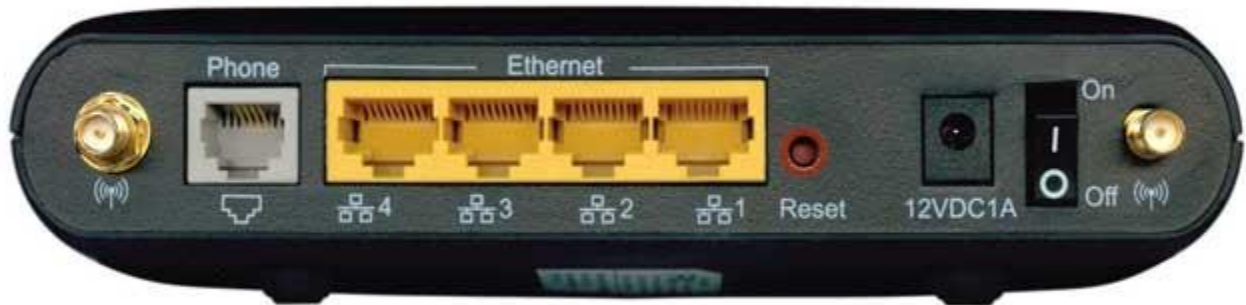

"Actiontec 300 Mbps Wireless-N DSL Modem Router (GT784WN) (Electronics) Was using a Westell router provided by Verizon a few years ago and it kept dropping the wifi connection on my laptop even though it was only 35-40 feet away from the router. I purchased this one and it was pretty much plug-n-play using Frontier DSL and I haven't lost a connection since...so I'm a happy camper again. It works well with Nettetalk voip to so that's another plus."

★★★★★ Couldn't Be Easier., March 19, 2011

This review is from: **Actiontec 300 Mbps Wireless-N DSL Modem Router (GT784WN) (Electronics)**

"Switched from a Frontier supplied wireless modem. Connection was almost as easy as just plugging it in (just followed the instructions). Even skipped having to type in my name and password on Frontier. Seems to be faster. This is an excellent purchase."

Conclusion:

The Actiontec GT784WN ADSL2+ combo Wireless-N Router is not the cheapest you can buy, but if you compare features and performance the GT784WN is a great value. The speed, performance, features, and [Excellent Customer Reviews](#) of the GT784WN make it a serious contender if you're in the market for a quality DSL modem/router for your home or office. In my opinion the Actiontec GT784WN is a full-featured, quality product and deserves five stars. ★★★★★
